

Business Leader, Electrical Transmission

HMA Land Services Ltd. is a Western Canadian-based company that provides a full range of land and operational services to the energy sector. Due to our expanding business needs, we are seeking a Business Leader, Electrical Transmission to work in our Calgary or Fort Saskatchewan office. The position will be responsible for the development and success of HMA's business in the area of electrical transmission and will be responsible corporately for all electrical transmission projects, business development and the overall accountability of this business unit.

Duties and Responsibilities

Initially, some of the specific duties will involve the following:

- Coordinating business proposals and work plans for work in the electric transmission sector
- Directing transmission projects on behalf of HMA, and managing client relationships
- Assembling project teams, ensuring they are appropriately resourced and trained
- Mentoring project managers, land agents and land administrators who have an interest in transmission

Requirements

The ideal candidate will have the following:

- Strong network of contacts within the electrical generation and transportation business
- Demonstrated understanding of the needs of the industry such as stakeholder consultation, landowner relations and land acquisition for new capital projects
- Excellent working knowledge of the regulatory process for new transmission facilities
- Demonstrated aptitude for business development
- Experience growing a successful business division is considered an asset
- Excellent written and verbal communication skills
- Demonstrated skills in team leadership, development & mentoring.
