Biography:

Mike is well-known within the pipeline community for his knowledge, experience and leadership in all facets of Operational Services. While his primary focus has been Damage Prevention, Emergency Management and Security Management, he has equally excelled managing right of way teams devoted to landowner issue management, pipeline operations and public involvement. Mike's unique experience stems from his 10 year career as a recognized National Energy Board Inspection Officer and successful transition to industry with Alliance Pipeline where he designed and built management systems to comply with legislation, standards and best practice and trained and lead teams accountable for managing them. Mike's knowledge and leadership is recognized industry-wide. He has chaired both the Canadian Energy Pipeline Association's Emergency Management Committee and the Damage Prevention Working Group and has been instrumental in the advancement of the Common Ground Alliance across Canada. Mike is a sought-after industry resource for his knowledge relating to NEB matters and his ability to articulately address them.

Experience and Competencies:

- Federal and provincial pipeline regulatory management
- Regulatory analysis
- Project Management
- Issue management
- Experienced, articulate and fluent presenter
- Fluently bilingual (English and French)
